

Tapinor Cream

Tapinarof INN 1%

Composition

Tapinor cream: Each gram cream contains Tapinarof INN 10 mg.

Pharmacology

Tapinarof is an Aryl hydrocarbon Receptor (AhR) agonist. The Aryl hydrocarbon Receptor (AhR) is a ligand-dependent transcription factor that helps to regulate diverse pathways, like decreasing inflammation, reducing oxidative stress and normalizing skin barrier functions.

Indications and usage

Tapinarof is indicated for the topical treatment of plaque psoriasis in patients above 18 years of age.

Dosage and administration

For plaque psoriasis apply a thin layer of Tapinarof cream to affected areas once daily up to 12 weeks depends on severity. Discontinue therapy when control is achieved. It is well tolerated even on sensitive skin areas like the face, neck, intertriginous areas, inframammary areas, axillae, genitalia, and anal crux. Tapinarof cream is not for oral, ophthalmic, or intravaginal use.

Contraindications

There is no known contraindication information found with Tapinarof.

Precautions

The precaution information for the use of Tapinarof cream in patients with psoriasis is still unknown.

Side effects

Folliculitis, headache, pain or swelling in the nose and throat, itching, skin rash or irritation including itching and redness. These effects should disappear in a few days as body adjusts to the medication.

Drug interactions

There are no known drug interactions with Tapinarof.

Pregnancy & lactation

Pregnancy:

The available data on Tapinarof cream use in pregnant women are insufficient. Therefore, Tapinarof should be used during pregnancy only if the potential benefit justifies the potential risk to the fetus.

Lactation:

No data are available regarding the presence of Tapinarof in human milk or the effects of Tapinarof on the breastfed infant, or on milk production. Tapinarof was transferred into the milk of animal. When a drug is present in animal milk, it is likely that the drug will be present in human milk. So, use Tapinarof with caution.

Pediatric use

Safety and efficacy of Tapinarof cream have not been established in pediatric subjects with psoriasis under 18 years of age.

Storage

Do not store above 25°C. Protect from light. Do not freeze. Keep out of the reach of children.

Packaging

Tapinor cream: Each carton contains a tube of 30 g Cream.
